Leading Our
Squadron Forward

From The Desk of Commander Bonnie Krieg, AP

Thanks to all who attended our March General Membership meeting. Our speaker from Lake St. Clair Clean Water Action was great! Thanks to Mike Boyle for making those arrangements.

Our April GM meeting will be a busy one as we all have a lot to talk over. Just a few of the items open for discussion are:

- Christmas Party will be Friday, December 6th.
- D/9 Spring Conference is just a week away. All members have been invited to the D/9 hospitality room on Friday, April 5th 6-8 P.M.
- Memorial Day Parade.
- We have the tri-squadrons events to discuss SCS participation.
- Shore Club (by land or sea) happenings to review
- All rendezvous dates and locations are open for discussion.

Please try to attend the GM meetings and be a part of the planning for 2013!

And don't forget to do your taxes by April 15th.

Happy Easter, Cdr. Bonnie

Education Department - by Lt/C Robert T. Krieg, AP

We will be holding an ABC class starting **May 1st** at 7pm at the SCS Civic Center. Not only could we use members to assist in preparing the class, but it would also show unity to potential members. Even if you only can stay for an hour or so at the very least you are showing potential members that we work together and have a good time doing it. I encourage the full membership to attend at least one of the 5 sessions to show support for our group. This will also be a large class, we will need proctors on test night to process testing quickly...

Thinking ahead we are also in need of instructors! We could use a few more ABC instructors to assist our current instructors, it would be nice to have 2-3 instructors split the 5 session ABC course. This will give a break to those that need it and give the students different perspectives of the boating industry from the various experiences of our instructors. If you have the ability to possibly teach for a couple hours once per session (2-3 times per year) it would strengthen our program tremendously!

Below are a few seminars and advanced courses being offered in our area:

Advanced Grades:

Seamanship: Starting April 29th at 7pm in Westland....instructed by the Dearborn Power Squadron

Seminars:

(All instructed by the Birmingham Power Squadron)

Basic Weather and Forecasting: April 13th at 9:30AM at West Marine Troy

Radar: May 11th at 9:30AM at West Marine Troy

Boat Handling Under Power: June 8th at 9:30AM at West Marine Troy

If interested in the above classes/seminars, please shoot me an email at bobkrieg@hotmail.com and I can get you more details. Please note that there are costs associated to classes and seminars.

Happy Waxing,
Bob

Executive Department - by Lt/C Andrew F. Kay, S

The weather still has not exactly heated up but that might give you extra time. If you are going to have work done with your boat now is the time to do it. Shops that replace upholstery, re-finish props, and do engine maintenance all get very busy come spring. Your best option to avoid becoming “dock trash” is to get your parts in early. The cold weather is going to prevent a lot of people from uncovering their boats right now. If you simply cut a hole in the shrink wrap to remove old seats that need to be reupholstered, or take in those props now, they should be ready to go before our Maiden Voyage down to Put-In-Bay in May! One spring we took our seats into the shop in May and it took them three weeks to finish instead of the usual one week turnaround time.

It is worth a few minutes in the cold in April for a few more weekends of boating fun in June!

Also, I am looking to become certified to perform vessel safety checks. Gary Denolf has graciously volunteered to assist me with this. If anyone else is interested let one of us know! If we get enough people we can plan a “class” at Mister Kay’s Bar and study up on it!

See everyone at the next meeting!

Andy

They're Ready—Are You? The 2013 Poster Contest submission forms are now available on the Membership Committee website. Print one of each, and use them. Take the poster contest information to schools, scout troops, etc., and have the youth prepare posters before summer vacation. After squadron judging, take the winning posters to your fall district conference. District winners should be ready for the 100th Anniversary National Meeting in January.

Administrative Dept - by Lt/C Gary M. Denolf, AP

Membership ... It's always more fun with more people ... wouldn't you agree?! So, spread the word and tell people about us. You really can't beat the price for all the things you get out of being a member of St. Clair Shores Sail & Power Squadron.

April starts the boating season and hopefully finally get's rid of the snow. Join us at the April 4th Membership Meeting; we have a lot to talk about this year. April 5-7 is the USPS D9 Spring Conference and April 27th is a gathering at the SCS Shore Club with Detroit and Mt. Clemens... (see enclosed fliers).

Bring your personal calendars to the April 4th GM meeting. We will be discussing our rendezvous and events for this year. As our calendar of events states *****subject to change***** and changes have been made!!! Please review the schedule carefully. There has been talk about moving a few more dates around and we certainly want to accommodate everyone.

P/C Bob Sr is looking for people to walk and help him with the S.C.S. Memorial Day Parade in May. He puts a lot of effort into this and it's a great way to have fun while getting our squadron name out to the public.

See you soon,
Gary

Safety Tips

DO BOATERS KNOW WHAT THEY DON'T KNOW?

Did you know that it is illegal to tie your boat to a channel marker? Do you know the difference in the color of a marker designating safe water on both sides and a marker indicating a hazard to navigation? Do you know the proper way to fuel your boat, avoiding the possibility of a static electricity discharge and an explosion? If your answer is no, then join the ranks of so many boat owners who think they are safe when they power up that brand new boat and head out on the open water.

Continued on next page ...

Safety Tips - Continued

Fortunately, the United States Power Squadrons® offers America's Boating Course (ABC) that enables new boat owners to learn the ways of the sea and to gain confidence in safe boating practices. The begins with nautical terms, types of boats, basic construction and propulsion, effects on sea worthiness and other issues that will help you to select the proper boat for your needs. Boat handling instruction includes an explanation of your responsibilities as your boat's r, required and recommended equipment, fueling, turning, backing, passing, handling rough water and other adverse conditions. Learn about the legal responsibilities for your wake, homeland security measures, licensing, and operation of marine radios, federal and state regulations, and a myriad of other basics.

The ABC class also includes the basics of navigation and piloting, use of charts and compass, recognition of navigation markers and the use of sound signals. It also covers personal watercraft operation.

Other classes that may be available in your area include NAVIGATION, the ultimate way to sail the seas using every tool from modern electronics to celestial stars and planets; WEATHER, which shows how to anticipate conditions and to know what the conditions may mean to a boater; MARINE ELECTRONICS, information in basic terms covering operation, maintenance, corrosion and electrolysis along with diagnoses and repair of electrical equipment problems; and, ENGINE MAINTENANCE which explains the basic mechanical systems along with sufficient diagnoses and repairs to enable you to get home.

Membership in the Power Squadrons opens the door to many social events with fellow boaters and is a great way to learn best cruising venues in local waters. There are frequent cruises to local destinations - planned and led by experienced captains, all of whom are fully educated in the fundamentals of boating. It is a great way to learn the local waters enjoying the camaraderie of fellow boaters.

For those who lack knowledge, a boating motto could well become: "Boating can be dangerous, costly, and miserable." So, if you are buying a new boat, take a course that will give you knowledge and confidence. For information on up-coming classes, and, in some areas, on-the-water-training, contact your local Power Squadron unit or go to the national website at www.usps.org.

As their members remind us: "Boating is fun...We'll show you how!"
