## MERRY CHRISTMAS

Wishing everyone and your families a safe and happy holiday season!!!

Please be advised that the General Membership meeting this month is rescheduled from the 1st Thursday to December 12th for our Annual Christmas Party and 2015 Elections (please see enclosed flier). As always, it a lot of fun, and don't forget the best part ... all the yummy food is provided for free to our members. **Don't forget to RSVP to me asap!!!**

Then, the New Year will bring in our Annual Change of Watch (see enclosed flier), which I am personally excited about, ha.

## Safety Tips

### Christmas Tree Fire Safety

In 1998, Christmas trees were the first item ignited in 300 home fires, resulting in 11 injuries and \$8 million in direct property damage. The leading cause of Christmas tree fires and property damage was short circuit or ground fault (21%). In this category, electrical failure other than short circuit ranked second in number of fires, injuries and property damage with the exception of the "other known" category. According to the National Fire Protection Association (NFPA), cords and plugs were the leading type of equipment involved in the ignition of Christmas trees.

#### Safety points to remember:

- Any string of lights with worn, frayed or broken cords or loose bulb connections should not be used.
- Always unplug Christmas tree lights before leaving home or going to sleep.
- Never use lit candles to decorate a tree, and place them well away from tree branches.
- Try to keep live trees as moist as possible by giving them plenty of water daily. Do not purchase a tree that is dry or dropping needles.
- Choose a sturdy tree stand designed not to tip over.
- When purchasing an artificial tree, be sure it is labeled as fire-retardant.
- Make sure the tree is at least three feet (one meter) away from any heat source and try to position it near an outlet so that cords are not running long distances.
- Do not place the tree where it may block exits.
- Safely dispose of the tree when it begins dropping needles. Dried-out trees are highly flammable and should not be left in a house or garage, or placed against the house.
